AACP INSTITUTE

LEARN FROM THE EXPERTS AT AACFP!

Gain the knowledge and clinical skills required to assess, differentially diagnose, and effectively treat the majority of craniofacial pain patients seen in dental practice today. Simultaneously make progress toward fulfilling AACFP Fellowship and AGD Mastership requirements.

CRANIOFACIAL PAIN

Mini-Residency Program

Lectures
Hands-On Workshops
Case Reviews
Case Presentations

SESSION 1: Craniofacial Pain Disorders, History, Examination, Diagnosis, & Treatment Planning

SESSION 2: Treatment & Management of the Patient with a Craniofacial Pain Disorder

SESSION 3: Physical Medicine Modalities, Occlusion, Pharmacology, & Electro-Diagnostic Modalities in the Management of the Craniofacial Pain Patient

SESSION 4: Orthodontics for Phase II Finishing, Sleep Disorders, Alternative Therapies and the Craniofacial Pain Patient, & Integration of Current Concepts in Craniofacial Pain into Dental Practice

American Airlines Training & Conference Center – Fort Worth, TX

Approximately 96 CE Credits (56 lecture, 40 participation) are Available in this 4-Session Craniofacial Pain Mini-Residency Program

AACP INSTITUTE

Gerald J. Murphy, BS, DDS – Director

AACP INSTITUTE

CRANIOFACIAL PAIN MINI-RESIDENCY PROGRAM OVERVIEW

“The AACP Mini-Residency is structured to offer a great deal of didactic and practical learning material. It was instrumental in elevating both my understanding and diagnostic skill, which my TMD patients are benefiting from now. In terms of both value and experience, it is truly one of the best courses available!”

Dr. Roger Cheung – BC, Canada

DEAR COLLEAGUE,

I would like to invite you to join us as a participant in the American Academy of Craniofacial Pain Institute Mini-Residency Program. This unique educational experience affords you the opportunity to participate in the finest program available dealing with craniofacial pain, temporomandibular disorders, and sleep dentistry.

This exceptional four-part program combines pre-study-classroom lecture as well as hands and on participation to cover the area of craniofacial pain, temporomandibular disorders, and sleep dentistry in their entirety. The program is ideal for those doctors wishing to achieve fellowship in the American Academy of Craniofacial Pain. Fellowship in the Academy sets the doctor apart from the general dental population who treat craniofacial pain as part of a general dental practice or who limit their practice to this discipline.

Achieving fellowship in the Academy demonstrates that the doctor has completed exhaustive training, demonstrated extensive experience, and has been thoroughly tested and evaluated by a testing body. This provides professionals in the health-care community, as well as patients, a means of selecting you as the professional they wish to refer to or seek care from. In addition, for those doctors who are on the Academy of General Dentistry mastership track, this program offers a combination of both lecture and participation that are required for the fulfillment of those requirements.

The program is designed for both the neophyte in this area who wishes to pursue exceptional educational experience to provide himself or herself with a broad base of knowledge and for the experienced practitioner helping himself or herself to categorize and systematize his or her approach to the treatment of patients.

The greatest benefit that you will receive is the training to help a suffering patient population, many of whom have been experiencing pain for years and have thought their quest for relief to be hopeless. Many of these suffering people have seen a multitude of health-care providers, with no relief forthcoming.

In addition, the areas of craniofacial pain/temporomandibular disorders and sleep dentistry afford an excellent and lucrative income center to an existing practice, affording you access to a multitude of patients seeking relief for their problems.

If you are striving for exceptionalism as a practitioner, then this exceptional program is for you. Whether you simply wish to integrate these concepts into an already successful general dental practice or whether your desire is to ultimately focus your practice entirely to this discipline, this program will fulfill your needs.

I urge you to carefully evaluate this brochure, which outlines the programs and the curriculum. In addition, read the testimonials of past participants and visit the members section of the Academy website, www.aacfp.org, and click on “Institute” to see firsthand in both photographic and video format the content and tenor of this excellent program. If you are not a member of the academy, I urge you to become one. You will realize significant savings on your registration fee as well as receive exceptional benefits that membership provides. Contact our Executive Office at 800.322.8651 for details.

I am confident that you will find your continuing education investment dollar well spent and know that the education that you will receive far exceeds the expenditure of time and money involved.

Dr. Gerald J. Murphy

Gerald J. Murphy, BS, DDS
Director AACP Institute

“Wow! This program is by far the most complete and detailed approach toward a very complex (and often confusing) part of dentistry. Allowing time to pass between sessions gives the attendees a chance to study, learn, absorb, and apply much of what they are learning. The level of expertise the presenters have is at once impressive and inspirational. The attitude of these presenters is one of helpful mentoring, and no attendee could feel anything other than a truly open and encouraging attitude from them.

In 40 years of dentistry, and participating in every CE program of national repute, without a doubt this mini-residency provided the most “bang for the buck.”

I would strongly encourage anyone practicing dentistry in the year 2010 to take up the challenge of becoming better informed, and more able to treat and help the myriad of patients suffering with TMD and the associated ills.

I know everyone will be pleased (as I have been) to have made the decision to attend the program.

Dr. Michael Folck
Virginia Beach, VA

AACP INSTITUTE

CRANIOFACIAL PAIN MINI-RESIDENCY PROGRAM OVERVIEW

“My experience with the mini-residency program offered by the AACP Institute went well beyond my expectations. Instead of receiving cookbook treatment modalities, I was presented with a philosophy of total patient care that will positively affect my practice and my patients for the remainder of my dental career. The instruction was top-notch, and the hands-on aspect of the course was not matched by any other program I’ve seen.”

Dr. Rob Herron – Columbus, KS

PROGRAM BENEFITS

- Enrollment is limited to ensure quality instruction, with priority registration given to dentists who register to attend the entire 4-session program.
- Passing grades on all 4 exams offered with this program satisfy AACP Fellowship written exam requirements; case presentation and review prepares qualified candidates for the oral portion of the AACP Fellowship exam.
- Curriculum and session content is evidence-based and 100% approved and endorsed by the American Academy of Craniofacial Pain, resulting in a superior learning experience.

TEACHING/LEARNING METHODOLOGIES

- Lecture and participation is included in every session, with emphasis on clinically relevant knowledge and skills.
- Case review and case presentation experiences encourage development of a logical framework you can use to approach patients (and complete oral case defenses required for tier advancement in AACP and other organizations).
- Stand-alone sessions enable you to enroll in the entire mini-residency program or attend individual sessions based on your schedule and personal interests.

END-OF-SESSION EXAMS

Fellowship in the AACP is available to AACP members only. Dentists wishing to test for Fellowship in the AACP will take four individual written examinations. The examination covering Session 1 will be given the evening prior to the start of Session 2, the Session 2 examination will be given the evening prior to the start of Session 3, the Session 3 exam will be given the evening prior to the start of Session 4 and Session 4 testing may be completed by mail utilizing a designated proctor prior to the AACP Summer Symposium or completed the day prior to the start of this summer meeting. Participation in the examination portion of the Craniofacial Pain Mini-Residency program is optional and at the discretion of each participant.

CONTINUING EDUCATION CREDITS

Approximately 96 CE credits (56 lecture, 40 participation) are available to participants in this 4-session Craniofacial Pain Mini-Residency program.

ADA CERP® | Continuing Education Recognition Program

AACP is an ADA CERP-Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. AACP designates this program for approximately 96 credit hours of continuing education credits. January 1993 to December 2012

Approved PACE Program
Provider FAGD/MAGD Credit
Approval does not imply acceptance by a state or provincial board of dentistry or AGD endorsement.
June 1, 2007 to May 31, 2011

SESSION 1

CRANIOFACIAL PAIN MINI-RESIDENCY PROGRAM

"I am constantly going to courses and trying to do a better job. There were many cases that I just could not understand why my treatment was not working. This course brought it all together and gave me other tools to use – that work."

Dr. Greg Sanchez – Albuquerque, NM

CRANIOFACIAL PAIN DISORDERS, HISTORY, EXAMINATION, DIAGNOSIS & TREATMENT PLANNING

22 APPROXIMATE CE CREDIT HOURS

16 lecture credits plus 6 participation credits

OBJECTIVES

Upon completion of Session 1, participants should be able to

1. Recognize the most commonly occurring craniofacial pain disorders
2. Complete a comprehensive history and examination of the craniofacial pain patient
3. Understand the more commonly used diagnostic tests and when to implement them
4. Make a provisional diagnosis based on patient complaints

By the end of Session 1, participants should also have acquired, improved, and/or updated their knowledge of and ability to understand the clinical relevance of head-and-neck anatomy, recognize and diagnose dental-alveolar pains, and develop a treatment plan for the craniofacial pain patient.

DAY 1:

- *Session and Course Overview*
- *Basic Head, Neck & TMJ Anatomy as it Relates to Physical Examination*
- *Comprehensive History*
- *Examination – Physical Evaluation*
- *Muscle Identification & Palpation Workshop*
- *Question & Answer Session*

DAY 2

- *Plain Film & CT Imaging*
- *Joint Vibration Analysis (JVA)*
- *Magnetic Resonance Imaging (MRI)*
- *Temporomandibular Disorders*
- *Craniofacial & Neuropathic Pain Syndromes*
- *Question & Answer Session*

DAY 3:

- *Range-of-Motion Evaluation, Cranial Nerve Evaluation, & Otologic Evaluation Workshop*
- *Actual Patient History, Examination, & Consultation*
- *Treatment Planning*
- *Patient Consultation, Insurance Coding (CPT & ICD codes), Informed Consent, & Narrative Reports*
- *Case Planning for Session 2*
- *Question & Answer Session*

SESSION 2

CRANIOFACIAL PAIN MINI-RESIDENCY PROGRAM

“As an orthodontist, this mini-residency gave me a thorough understanding of the anatomy, physiology, and function of the masticatory complex and the many modalities available in treatment. It was one of the most intense and informative courses that I have ever completed.”

Dr. Ken Dillehay – Wichita, KS

TREATMENT & MANAGEMENT OF THE PATIENT WITH A CRANIOFACIAL PAIN DISORDER

23.5 APPROXIMATE CE CREDIT HOURS

10 lecture credits plus 13.5 participation credits

OBJECTIVES

Upon completion of Session 2, participants should be able to

1. Treat and manage the myofascial pain-disorder patient
2. Treat and manage patients with intra-articular pathology of the TMJ
3. Treat and manage craniofacial pain syndromes

By the end of Session 2, participants should also have acquired, improved, and/or updated their knowledge of intraoral orthotics (e.g., types, designs, fabrications, and management) and their ability to deliver-trigger point injections, deliver intra-articular injections, and manipulate the TMJ to reduce a non-reducing disc displacement.

DAY 1:

- Welcome & Session Overview
- Case Reports & Discussion
- Head-and-Neck Anatomy as it Relates to TMD, Muscle Disorders, & Craniofacial Pain Disorders
- Anatomy Lab with Dissected Specimens
- Overview of Muscle Disorders
- Appliances (Splints) for Muscle Disorders
- Occlusal Registration Workshop
- Myofascial Pain Disorders: Introduction to Spray & Stretch

DAY 2

- Spray & Stretch Technique Workshop
- Introduction to Trigger-Point Injections
- Trigger-Point Injection Workshop
- The NTI Appliance
- Pathology/Disease Process of TM Joints
- TM Joint Injection Techniques
- TM Joint Injection Workshop
- Non-Reducing Disc-Displacement Reduction Technique & Temporary Appliance Fabrication
- Appliances for Disc-Interference Disorders: Types, Occlusal Registration, Fabrication, & Management

DAY 3:

- Temporary Splint Fabrication Workshop for Non-Reducing Disc Displacements, NTI Fabrication Workshop
- Common Craniofacial Pain Disorders
- Craniofacial Pain Disorder Diagnostic & Therapeutic Injections Workshop
- Practice-Management Discussion
- Discussion of Case Presentation & Overview of Session 3
- Testing & Review

SESSION 3

CRANIOFACIAL PAIN MINI-RESIDENCY PROGRAM

PHYSICAL MEDICINE MODALITIES, OCCLUSION, PHARMACOLOGY, & ELECTRO-DIAGNOSTIC MODALITIES IN THE MANAGEMENT OF THE CRANIOFACIAL PAIN PATIENT

"Multiple sessions, with time in between them, allows for learning in layers. This helped me to gradually incorporate into my practice what was being taught. There is so much more to treating TMD symptoms than just making a splint. This is a new growth center within my practice and is of great value to my patients. Time and money well spent!"

Dr. Kristin Morris – Cedar Rapids, IA

24 APPROXIMATE CE CREDIT HOURS

14.5 lecture credits plus 9.5 participation credits

OBJECTIVES

Upon completion of Session 3, participants should be able to

1. Prescribe the physical medicine modalities that best complement and enhance the treatment objectives
2. Understand principles of occlusion to develop ideal occlusal patterns for treatment orthotics and phase-II prosthetic finishing
3. Evaluate the necessity for pharmacologic management of the craniofacial pain patient
4. Apply electro-diagnostic instrumentation in the evaluation of the craniofacial pain patient

By the end of Session 3, participants should also have acquired, improved, and/or updated their knowledge of and ability to administer physical medicine modalities in a clinical setting; understand when prosthetic finishing is required and the best approach to satisfy patient needs; understand what medications patients may present with and how these medications may adversely affect pain patterns; appreciate when, why, and what medications to prescribe; understand the reasons for local anesthetic failures; appreciate the role of osteocavitation lesions in craniofacial pain disorders; understand the role of percutaneous radio frequency thermoneurolysis in craniofacial pain treatment; secure a neuromuscular occlusal registration to fabricate a neuromuscular orthotic; and organize and prepare a proper case presentation.

DAY 1:

- Welcome & Session Overview
- Case Reports & Discussion
- Electrotherapy & Electrophysics Concepts
- Application of High-Voltage & Transcutaneous Electrical Nerve Stimulation (TENS)
- Overview of Microcurrent, Inferential Stimulation, & Laser Therapy
- High-Voltage Stimulation & TENS Demonstration & Workshop
- Ultrasound & Iontophoresis Demonstration & Workshop
- Neuromuscular Techniques for the Upper Quarter: Workshop

DAY 2

- Principles of Occlusion
- Prosthetic Case Finishing
- Pharmacologic Management of the Craniofacial Pain Patient
- Mechanism of Local Anesthetic & Reasons for Local Anesthetic Failures
- Differential Diagnosis of Osteocavitation Lesions
- Causes of Myofascial Treatment Failures
- Perpetuating Factors of Myofascial Disorders Workshop
- Percutaneous Radiofrequency Thermoneurolysis

DAY 3:

- Introduction to Neuromuscular Recording Devices, Computerized Mandibular Scanning, Electromyography, & Ultra-Low Frequency TENS
- Occlusal Registration Workshop: Registration with TENS, Registration with Closest Speaking Space
- TM Joint Vibratography & Sonography
- Neuromuscular Philosophy & Practice
- Putting It Together
- Testing & Review

SESSION 4

CRANIOFACIAL PAIN MINI-RESIDENCY PROGRAM

ORTHODONTICS FOR PHASE-II FINISHING, SLEEP DISORDERS, ALTERNATIVE THERAPIES AND THE CRANIOFACIAL PAIN PATIENT, & INTEGRATION OF CURRENT CONCEPTS IN CRANIOFACIAL PAIN INTO DENTAL PRACTICE

"What can be said about any activity that affirms our hopes for the future? The value of such fine education is truly a bargain. I am excited that I am experiencing this at my 30th year of practice."

Dr. Paul F. Mitsch – Augusta, KS

25.75 APPROXIMATE CE CREDIT HOURS

15.5 lecture credits plus 10.25 participation credits

OBJECTIVES

Upon completion of Session 4, participants should be able to

1. Determine the best orthodontic approach for phase-II finishing
2. Evaluate the craniofacial pain patient for obstructive sleep apnea (OSA)
3. Determine if oral appliance therapy for OSA is indicated and, if so, the type of appliance to prescribe
4. Understand the role of alternative therapies in the management of the craniofacial pain patient
5. Have the management skills to integrate craniofacial pain into the general dental practice

By the end of Session 4, participants should also have acquired, improved, and/or updated their knowledge of and ability to use cephalometric analysis in orthodontic care of the extracapsular and intracapsular TMD patient plus orthodontic care to improve the airway, understand growth and development of the craniofacial complex, determine the timing for orthodontic treatment to correct craniofacial development problems, use diagnostic instrumentation for OSA, and appreciate what types of alternative therapies might best complement traditional therapeutic techniques.

DAY 1:

- Case Presentations
- Occlusion/Orthodontics/Malocclusion Philosophies
- Growth & Development of the Craniofacial Complex
- Orthodontic Diagnosis & Cephalometric Analysis
- Cephalometric Workshop
- Orthodontic Treatment Timing
- Orthodontics for the Extra-Capsular Patient
- Arc-Length Analysis Workshop
- Orthodontics for the Repositioned Patient
- Protocol if TMD Problems Return During/After Orthodontic Treatment
- Orthodontic Treatment to Help the Airway

DAY 2

- Introduction to the History of Sleep Medicine/Dentistry
- The Nature of Sleep
- Sleep Disorders
- Pediatric Development & OSA
- Obstructive Sleep Apnea
- Parasomnias
- Oral Appliance Fabrication Workshop
- Examination/Diagnosis
- Treatment Options
- Oral Sleep Appliances: Selection & Treatment Procedures
- Ambulatory Sleep-Study Workshop
- Problem Solving & Discussion

DAY 3:

- Concepts of Cranial Therapy and their Relationship to the Craniofacial Pain Patient
- Cranial Therapy Workshop
- Applied Nutrition for the Craniofacial Pain Patient
- Alternative Therapies for Craniofacial Pain
- Integration of Current Concepts in Craniofacial Pain into Dental Practice
- Group Discussion and Problem Solving

Hurry! Enrollment is limited and offered on a first-come, first-served basis.

HOW TO REGISTER

Complete and mail the registration form or register by fax at 703.435.4390.

Enrollment is limited; participants who register for the entire 4-session mini-residency will receive priority. Please do not make hotel and travel arrangements until you receive confirmation from the AACP Institute that your registration has been accepted.

SESSION DATES

September 15-16-17, 2011

Session 1: *Craniofacial Pain Disorders, History, Examination, Diagnosis, & Treatment Planning*

November 3 - 4 - 5, 2011

Session 2: *Treatment & Management of the Patient with a Craniofacial Pain Disorder*

February 16-17-18, 2012

Session 3: *Physical Medicine Modalities, Occlusion, Pharmacology, & Electro-Diagnostic Modalities in the Management of the Craniofacial Pain Patient*

April 26-27-28, 2012

Session 4: *Orthodontics for Phase-II Finishing, Sleep Disorders, Alternative Therapies and the Craniofacial Pain Patient, & Integration of Current Concepts in Craniofacial Pain into Dental Practice*

Approximately 96 CE credits (56 lecture, 40 participation) are available to participants in this 4-session Craniofacial Pain Mini-Residency program.

TUITION

Entire 4-Session Program

- \$10,740 (AACP-member doctors)
- \$13,600* (nonmember doctors)

Individual Sessions

- \$3,500 (AACP-member doctors)
- \$4,215* (nonmember doctors)

*Join AACP and save. To request a membership application, call the AACP Executive Office at 800.322.8651.

COURSE LOCATION

American Airlines Training & Conference Center – Fort Worth, TX

REGISTRATION DEADLINE

Register early. Registrations will be accepted on a first-come, first-served basis. Payment of tuition in full is required to guarantee your space.

HOTEL ACCOMMODATIONS

For reservations, call the American Airlines Training & Conference Center at 800.777.6464 or 817.956.6030

- \$179 (facility use + overnight guest room)
- \$89 (facility use only; no guest room)

Rate includes continental breakfast and all-day break service, plus lunch and dinner buffets. Free shuttle service between the AAT&CC and Dallas/Fort Worth International Airport is also provided.

AIRFARE SAVINGS

American Airlines is offering discounts off published fares to course participants. For pricing, assistance with airline reservations, and ticket purchases, contact the American Airlines Service Desk at 800.433.1790.

AMERICAN AIRLINES TRAINING & CONFERENCE CENTER

RATES

PACKAGE RATE (with guest room): \$179 (plus tax) per person/per day, including overnight accommodations; round-trip shuttle transportation from DFW International Airport to the AATCC; and continental breakfast; all-day break service; lunch and dinner buffets; and unlimited use of the facilities.

The above room rate is inclusive of guest-service fees and service charges applicable to guest rooms and group functions. Lunch and dinner buffets plus gratuities for bell staff and housekeeping; in-room coffee; and unlimited use of the fitness center, heated swimming pool, tennis, basketball, and volleyball facilities are included.

DAY RATE (without guest room): \$89 (plus tax) per person/per day, including round-trip shuttle transportation from DFW International Airport to the AATCC; and continental breakfast; all-day break service; and lunch and dinner buffets, excluding overnight accommodations.

The “Day Rate” is applicable to participants in the Craniofacial Pain Mini-Residency program who do not require overnight accommodations. Continental breakfast, all-day break service, and lunch and dinner buffets are included; taxes and service charges are not included.

CHECK-IN, CHECK-OUT POLICIES

Guest accommodations will be available at 3:00 PM on arrival day and reserved **until 11:00 AM on departure day**. American Airlines Training & Conference Center would appreciate receiving flight arrival times, if available. Any participant wishing special consideration for late checkout should inquire at the front desk on the day of departure.

GUEST-ROOM CHARGES

Craniofacial Pain Mini-Residency program participants will pay their own account upon departure. When reservations are made, a deposit equal to the package or room rate and tax for the night will be required. **An individual’s deposit is refundable to the individual if the American Airlines Training & Conference Center receives notice of an individual’s cancellation at least 24 hours prior to scheduled arrival.** Upon check-in, each guest will be required to present a valid credit card, on which an amount of sufficient pre-authorization can be obtained to cover the package or room rate, tax charges, and guest fees for the length of the guest’s stay plus the anticipated use of the American Airlines Training & Conference Center’s ancillary services. Each guest’s home/business address and e-mail address will also be required.

TRANSPORTATION

Complimentary shuttle transportation is available to and from the American Airlines Training & Conference Center and Dallas/Fort Worth International Airport. Complete instructions for calling from the airport will be sent to Craniofacial Pain Mini-Residency-registered attendees. If you take a taxi, be sure to tell the driver you wish to go to the American Airlines Training & Conference Center (at Highway 360 and 183) in Fort Worth. If you request “American Airlines Center,” you may find yourself in Dallas at a sporting event or concert.

AIRFARE SAVINGS

Through special arrangement with the AACP Institute, American Airlines is offering discounts off its published airfares to Craniofacial Pain Mini-Residency program participants. For pricing, assistance with airline reservations, and ticket purchases, contact the American Airlines Service Desk at 800.433.1790.

FORMS OF PAYMENT

VISA and MasterCard

Check (in US funds, drawn on a US bank)

Note: Tuition payment must be received by the AACCP to reserve your space in this limited-enrollment mini-residency program!

JOIN AND SAVE

Tuition savings is one of many benefits of being an AACCP member.

To qualify, simply submit a completed AACCP membership application (with processing fee) with your Craniofacial Pain Mini-Residency program registration.

To request your membership application, call AACCP at 800.322.8651.

LOCATION AND IMPORTANT DATES

All sessions in this limited-enrollment program will be held at the **American Airlines Training & Conference Center** at Dallas/Fort Worth International Airport.

Session 1: September 15-16-17, 2011
Craniofacial Pain Disorders, History, Examination, Diagnosis, & Treatment Planning

Session 2: November 3 - 4 - 5, 2011
Treatment & Management of the Patient with a Craniofacial Pain Disorder

Session 3: February 16-17-18, 2012
Physical Medicine Modalities, Occlusion, Pharmacology, & Electro-Diagnostic Modalities in the Management of the Craniofacial Pain Patient

Session 4: April 26-27-28, 2012
Orthodontics for Phase-II Finishing, Sleep Disorders, Alternative Therapies and the Craniofacial Pain Patient, & Integration of Current Concepts in Craniofacial Pain into Dental Practice

AMERICAN ACADEMY OF CRANIOFACIAL PAIN

Leading the TMD Community
www.aacfp.org

MISSION

The American Academy of Craniofacial Pain is committed to the relief of craniofacial pain and dysfunction and the advancement of research in this field.

VISION

The AACCP will continue to be the craniofacial pain/TMD organization representing all practitioners in this discipline by providing a common ground for advancement of knowledge, clinical practice, and research.

LIMITED ENROLLMENT • REGISTER NOW

ENROLLMENT IS LIMITED; PARTICIPANTS WHO REGISTER FOR THE ENTIRE 4-SESSION MINI-RESIDENCY WILL RECEIVE PRIORITY. PLEASE DO NOT MAKE HOTEL AND TRAVEL ARRANGEMENTS UNTIL YOU RECEIVE CONFIRMATION FROM THE AACP INSTITUTE THAT YOUR REGISTRATION HAS BEEN ACCEPTED.

TO REGISTER:

Fax the completed form to 703.435.4390 or call the AACP at 800.322.8651.

When calling, please have your VISA or Mastercard handy; full payment is required to guarantee your space in this course. Since enrollment is limited, we recommend that you do not make your travel arrangements or guest-room reservations until you receive confirmation from the AACP Institute that your registration is confirmed. Instructions for providing occlusal models and bite registrations for each of your custom appliances will be furnished to you at that time.
